Daffodil Multi-Play Unit

DZW451

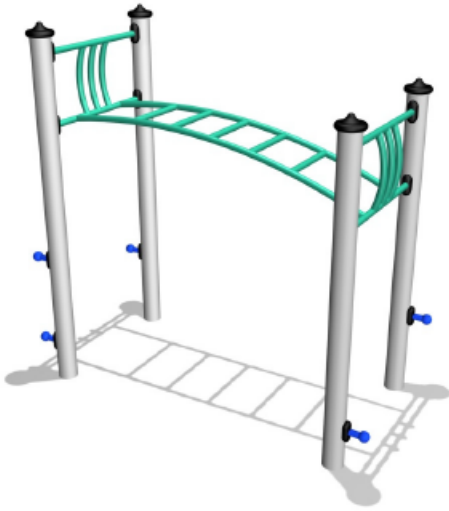

The Daffodil Multi-Play Unit is designed to reflect a nature theme, containing waving panels, a neutral colour palette, and motifs that reflect the natural world. It consists of three platforms measuring: 0.9m, 1m & 1.2m in height, with access points at either end to encourage movement across the unit. This unit contains 11 activities which promote physical and social development. Specifically it offers: a climbing ramp with rubberized hand holds to provide an easier access point for young/less abled children, a set of leaf steps which circulate around a post which require a higher degree of balance and co-ordination, a scrabble net which provides a shortcut to the slide, a set of binoculars to spy on passing wildlife, a mini megaphone for social games, a circular finger maze and a bug pathway panel to encourage the development of fine motor skills, a polycarbonate window panel allowing interaction between parents and children, and the space under the decks incorporate a tunnel and a seat to maximise the play value at ground level.

Target Age Range: 2 – 6 years

Hand Over Hand

PZW580

Our trim trail elements are designed to create circuits and courses of all sizes. A mixture of balancing, climbing, traversing and sport activities will result in a more exciting trail with a breadth of challenge. Remember to allow the appropriate space between items. Components do not include posts. Posts are priced separately.

Target Age Range: 6-16 years

Rope Bridge

PZW786

Our trim trail elements are designed to create circuits and courses of all sizes. A mixture of balancing, climbing, traversing and sport activities will result in a more exciting trail with a breadth of challenge. Remember to allow the appropriate space between items. Components do not include posts. Posts are priced separately.

Target Age Range: 6 – 16 years

2.4m High Swing

SBN083

This 2.4m high swing features two Bumper seats and a Nest Swing. The Flat seats are made from natural, black rubber and connected to the frame using 8mm chains and anti-wrap bearings. The Nest Swing is one of our most popular inclusive products. The 'U' shaped seat is designed to hold several young children and those with special needs. Parents and young children can also swing together for a shared experience. The seat is made from steel rope matting with a padded rope ring round the edge for comfort. The frame is supplied with a reinforced, galvanised top bar and powder coated legs.

Target Age Range: 4 - 10 years

Static Beam

TZU119

Trim Trial components encourage good circulation routes between two points within a scheme. The Static Beam specifically focuses on developing children's balance and co-ordination. Materials consist of a rubber bonded mild steel beam, galvanised steel uprights, and natural rubber post caps.

Target Age Range: 6 – 16 years
